

This is love.

Love of simple and fun music,  
love of computer game music  
created in the 1980'ies.

Music looped after 50 seconds,  
game over in a few minutes.  
Those 30 million Commodore 64  
owners played, over and over  
again.

What you hear on this CD is  
beautiful human voices, singing  
computer game music from  
1983-1991, a cappella.

Award-winning remixers Makke,  
Larsec, DHS, Sumpi, O2 and  
Mahoney made the music for  
the second half of the CD.

Since the success of our last cd  
\*\*\* Commodore 64 \*\*\* Vocally,  
we've been asked over and over  
again about a sequel.

We could not let you down.  
Not when we've come this far!

Thanks for buying this CD.
